

The **IBSSweb** Enterprise Security Management Software is truly scalable and can be expanded with add-on modules to offer fully integrated security solutions.

Messaging Gateway is an add-on module that gives **IBSSweb** users real-time notifications arising from events and/or alarm events. Notifications are user configurable and can be sent to users via SMS, email and/or WhatsApp.

Key Features

- Real-time event notifications

- Message editor with configurable parameter values

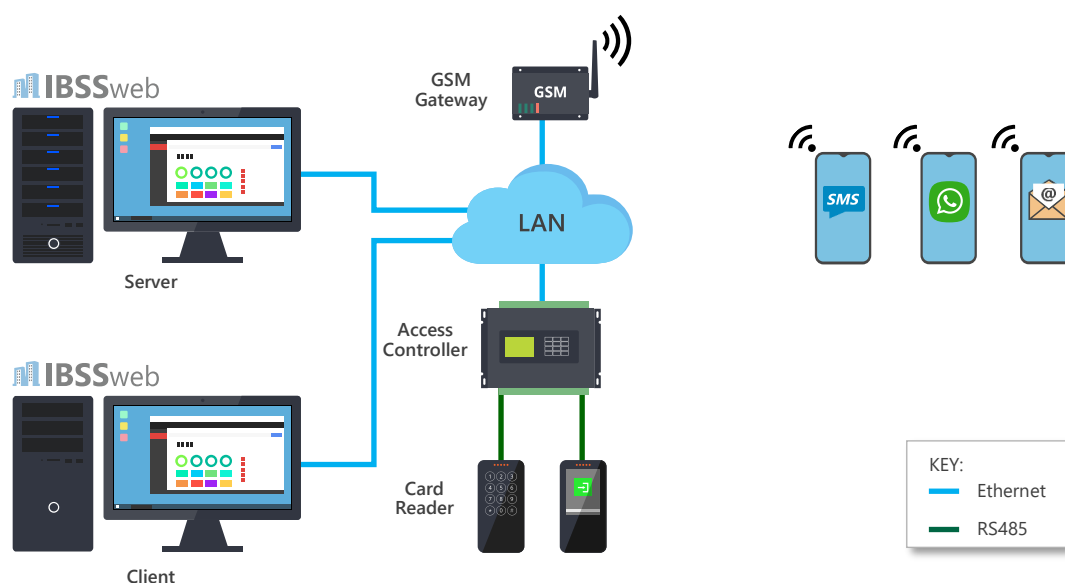

- Simultaneous notifications via SMS, email and/ or WhatsApp

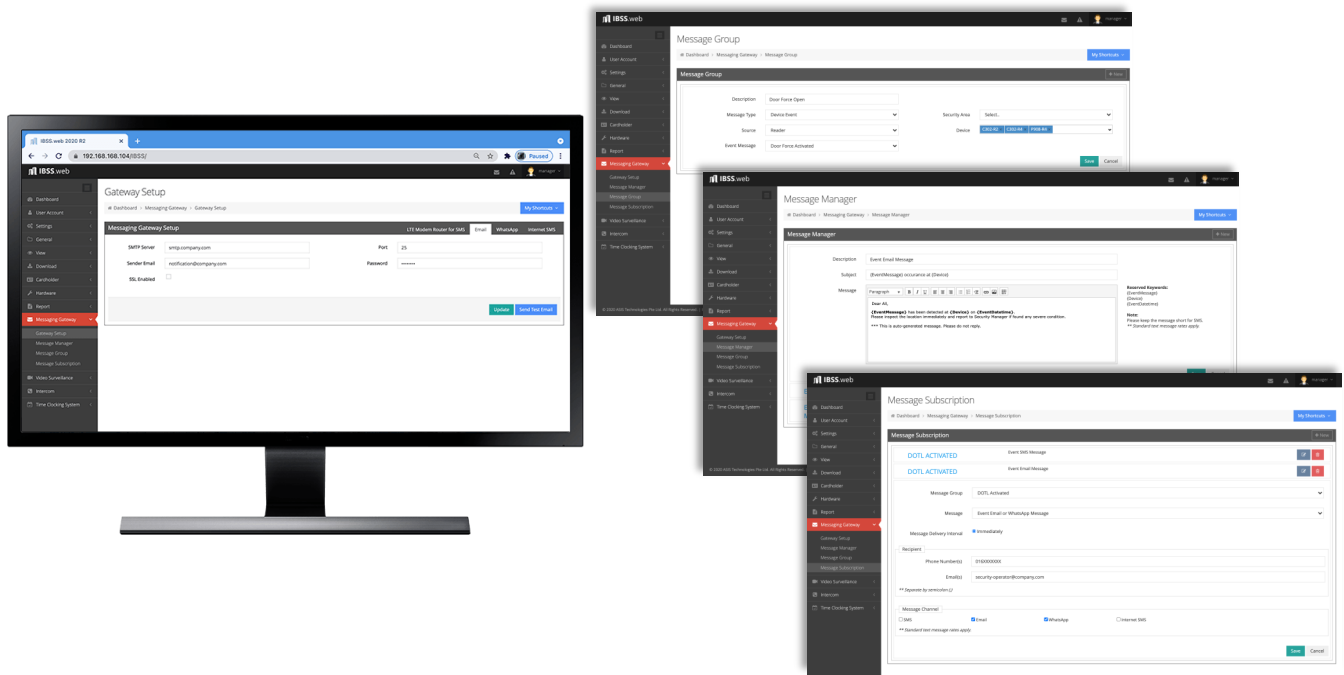

- Card, Reader and Controller event notifications
