

# KeyENTRA OSDP Readers

The **KeyENTRA OSDP Readers** are compact and robust, a sleek and elegant solution for any premises.

These readers are used with MIFARE cards to read up to 7-byte UID, for higher security. This reader family boasts compatibility with industry-standard interfaces, including both OSDP and Wiegand, with support for up to 58 bits.

With an IP66 rating, the readers are suitable for use both indoors and outdoors. The keypad model is a good option for elevated security in access control operations.
